

Exercises			
Mòdul:	DIW	Bloc:	B1.2 CSS Layout

Exercise.

In this exercise, try to replicate the web page that you can see in this [capture](#). In [this file](#) you'll find what you need to start to work on this page.

Requirements

- Don't change the HTML5 file
- Don't change the `position` property where required in the selectors where it has established
- Add the CSS needed to get a layout as similar as possible to the [capture](#)
- Use `height`, `width`, `min-height`, `max-height` when needed
